Update on the Strategy for the Portfolio

To date, since the launch of the piecemeal disposal strategy for the portfolio, forty-four properties marketed as trading care homes have now been sold.

In addition, twenty-one properties marketed as closed care homes have now been sold.

Currently, the remaining nine trading care homes are being marketed for sale.

Based on the disposal process to date and in particular the events experienced during 2024, including a slower than anticipated take-up of the homes by interested parties; buyers, funders and their legal counsel being increasingly cautious, methodical and diligent in their legal enquiries; the availability of debt including the extended timeframes experienced with lenders and the regulatory approval timeframes being seen (of not less than 8 months), it is estimated that the portfolio will be exited in full by December 2025.

The process is being prolonged due to extended periods of time being experienced by buyers to secure regulatory approval for the acquisition of a care home. In England, this process is taking up to eight months, while in Scotland, it is taking up to eleven months.

The regulatory authority for England has recognised that some providers have faced difficulties in using the new provider portal. In response, the regulator has implemented changes to the registration process to address these issues and enhance the overall experience for providers.

Ashbourne portfolio

Trading care homes

Following the completion of the various sales, currently there are nine care homes that having been marketed for sale, are now in legal documentation.

Below is a summary of the number of trading care homes remaining in the Ashbourne portfolio as at 4 February 2025.

<u>Status</u>	<u>Location</u>	<u>No of homes</u>	<u>For sale</u>	<u>%age for sale</u>	<u>Offer Accepted</u>	<u>In the legal process</u>	<u>Contracts Exchanged</u>

“	Scotland	<u>2</u>	<u>2</u>	<u>100%</u>	<u>2</u>	<u>2</u>	<u>0</u>
	Total	9	9	100%	9	9	1

The Special Servicer has chosen not to identify such assets so as not to detract from the future trading and marketing for sale of such businesses, however it will update noteholders as the various disposal processes develop.

For those trading homes that are in the course of legal documentation, approval will be required from the relevant regulator for the proposed change of registration to the proposed new owner, with the latter taking up to 45 weeks to conclude, with prolonged re-registration periods in particular currently being experienced by buyers on the Scotland portfolio.

As the sales processes for the remaining trading care homes develop toward a conclusion, the Special Servicer will update noteholders accordingly.

Trading Update

Similar to the 7 November Announcement, the Special Servicer requested of the Asset Manager and the manager of the Operator (HealthCare Management Solutions), that updated trading information on the business be prepared for disclosure to noteholders.

Such data has now been prepared and verified by the Operator and this is outlined in the attached Schedule 1.

Priority of Payments

As reported in the 7 November Announcement, following the restructure & restatement of the Ashbourne Whole Loan in December 2013, a re-ordering of the priority of payments was concluded.

The Special Servicer considers that it is beneficial to Noteholders to re-affirm such priority of payments and to that end (and for ease of understanding), below is a table showing the existing priority of payments waterfall, under the current Material Non-Payment Default of the Ashbourne Portfolio Whole Loan including those items that rank senior to the repayment of the principal amount outstanding of the Priority A Principal Loan.

The following excerpt of the waterfall as set out in the November 2013 Amended and Restatement Facility Agreement provides a description of (and amounts due) to certain creditors and the order in which any amounts received from the Borrower are applied by the Agent or Security Trustee.

Payments subject to the waterfall which rank below the categories set out in the excerpt are not expected to be recovered and so are not included.

All the data therein is as at 17 January 2025 and has been reviewed and confirmed by the Agent as correct.

Larchwood (UK Mainland Portfolio)

Unaudited trading statement as 31st December 2024

Introduction

Note that this trading statement should be read in conjunction with the previous trading updates provided in the Notices to Noteholders, with the most recent being dated 30th September 2024.

In the quarter to 31st December 2024, 3 homes were sold or closed.

The results and KPIs for sold or closed homes have been excluded from the figures in this update, therefore all results and KPIs are presented on a like for like (LFL) basis for 11 homes, 3 less than in the 14 homes in the September update.

As and when further homes are sold or closed, the results from these homes will be excluded from the figures in the future updates with adjustments made to the LFL figures as required.

The calculation of Average Weekly Fee throughout this update excludes non Covid-19 'Other Income'.

Average fee has decreased by £33 (2.8%); occupancy has decreased slightly quarter-on-quarter by 1.64%.

Staffing costs have increased by £130,000 (2.8%) whilst Indirect costs have decreased by £20,000 (2.0%). Operating Costs have slightly increased and thus the impact of these factors at EBITDARM level is a decrease of £0.44 million.

Occupancy

On a LFL basis for the 11 homes in the portfolio as at 31 December 2024, average occupancy for the quarter decreased by 8 clients compared to the quarter to 30 September 2024.

Total website users across the quarter were 79,533, an increase of 96%. Website hits during November increased significantly to the highest number in the last 12 months leading to the jump in users across the quarter. Organic searches (clicks from free search engine listings such as Google and Bing) were down – 2,682 – down 57%. Carehome.co.uk accounted for 60 clicks.

The number of users reached by Larchwood Facebook pages was 297,814 down from 376,499 – however standing alone December 2024 was a peak month for reach.

Facebook engagement was 24,240 – up from 20,013 (21%) – boosted again by the December/Christmas posts.

As a note – video views for the quarter were 181,439 – up from 64,401 (182%) the previous quarter – again due to the Christmas effect with a great deal of engaging video content being shared.

Larchwood Linked In page gained 11 new followers with a following of 4,656. The name appeared in more than 150 searches on Linked In.

Average Weekly Fees

Average weekly fees for the quarter to 31 December 2024 were £1,141 compared to the previous quarter average of £1,174, a decrease of £33 per week (2.8%).

Fee increases for all clients generally occur on 1 April each year. The status of the increases for 2024 is as follows:

English Local Authorities' (LAs) – Annual fee reviews have been formally notified by 9 of the 11 relevant LA's.

The average increase to date has been c.6.61% against the budget of 7%.

Scottish LA's – One rate covers the whole of Scotland and has been agreed centrally at 7.77% for Nursing and 8.3% for Residential clients.

Self-funder fee increases averaged c.11.25% compared with a budget of 10%. The number of clients paying top-ups has decreased from 12 over the quarter to 7 at December 2024. In the same period the number of self-funders was increased from 111 to 116 clients.

Costs

Overall staff costs increased as a percentage of fee income by c.4.50% quarter-on-quarter mainly due to the higher staff costs in the quarter to December. The staff costs in the quarter to September were lower due to reduction in holiday pay accrual.

Agency usage in the quarter averaged c2,855 hours per week, a reduction of c18% on the previous quarter.

Operating Costs increased by c.2.4% from the previous quarter, rising to c.£9.62 per client day.

The EBITDARM for the 11 homes was c.£5.00 million for the twelve months to December 2024.

Overall Outlook

Local Authorities and Integrated Care Boards remain under significant financial pressure. We were however anticipating an average increase in fees of circa 8% from the authorities when they had all declared their 2024 rates. We now have only two local authorities who have not declared, West Berkshire who fund 18 residents and Suffolk who fund a further 10. It is our current expectation that we will see no further increases in socially funded fees and that the current average increase of 6.61% will not change until the 2025/26 increases are announced in early April. We continue to see examples of targeted projects to assist the NHS bed crisis following through into new care pathways for admissions. Support to aid recruitment is an area where we have seen some success in fee rates.

We expect that pressures on staff recruitment and wage inflation will continue into the rest of 2025, driven by improving pay rates in the NHS and the increase in Employers National Insurance.

Heat & light costs have stabilised for businesses over this financial year. The concerns on costs to businesses after the withdrawal of Government support in March 2023 has so far been unfounded. The Group did not suffer the price hikes some providers are seeing although there may be some additional costs where actual usage varies to contract predicted usage. We have seen these price variations result in charges for under usage from our supplier. The charge to Larchwood North has been withdrawn but there is still a possibility of a charge for 4 homes in Larchwood South which is being negotiated down by the company's energy broker. New charges based on actual usage may occur in February. Although the contracts are on an individual home basis, the Group was able to secure energy prices under contract prior to the material increases experienced over the last year. All homes have recently renewed both Gas and Electric contracts with all expiring on 31st December 2025.

The rate of inflation decreased in almost every month from February 2023 (13.8%) to June 2024 (2.9%). It has nudged up slightly and seems to have settled at its current RPI of 3.5%. Although this is still above pre- pandemic rates, it has levelled out after reaching a high of 14.2% in October 2022. Local Authorities and Integrated Care Boards are overall recognising the need to increase fees. English homes had an average of 9.1% fee increases in the 12 months to December 2023 with Scotland only applying 6% which applies to all LA's. However, these fees were only applied several months after inflation increases and the time lag was noticeable in results during the earlier periods of this report. We are supplying cost of care data to various government-based funders which may help to obtain inflation tracked fee increases in 2025.
